Koziol is a derivative of the Koza II trestle and is converting the trestle into a table frame for a small table to be used in smaller kitchens or as contract furniture

for restaurants. Max. size of the table top 1,20 m x 1,20. The table tops need to be purchased separately as we do not provide them at the moment.

Raw lacquer steel version products are designed to have an industrial look so they can have few scratches or rust stains on a surface underneath the lacquer.
