IN THE WIND PENDANT HORIZONTAL

Arihiro Miyake

Pendant lamps for a warm and widespread LED lighting. The structure is manufactured through a technology of torsion and misalignment of the aluminium extruded bar, expressly studied by Nemo. It allows a 360° LED emission. Terminal parts are in diecasted aluminium. Diffusers are in opal metacrylate. The lamps are available in matt white, matt black, titan grey and matt gold.

LED 2700K

LAMPING

Source Total power Emission Switching Tension Color temperature Luminous flux Typ CRI Energy class Materials Notes

Net lamp weight

Codes
